RICHARD I. MANNING, OF SUMPTER, FOR GOVERNOR

Vote for Manning, because:

He is a practical and successful farmer and knows their needs. He is working for better fertilizers, and for better country conditions—

He is a practical and successful business man and can administer the affairs of the State in the best manner—

He is a level-headed man, of sound judgement, with fine administrative ability; he is the kind of man that gets things done—

He is a courageous man and he is an honest man; he does not form his views just to please a crowd, nor does he pretend to be one thing to one man, and another thing to another—

He will enforce the law on the statute books without favoring one man over another, or one town or county over another—

And because, with Manning governor, South Carolina will prosper, will be law-abiding, will be well governed, and you will never be sorry that you voted for him.—Ady.

LEE COUNTY ENDORSES MANNING FOR GOVERNOR

Bishopville, S. C., Aug. 13, 1914.

To the Democratic Voters of South Carolina:—

It is a poor policy to split up our votes among a great many candidates; by doing so some man that the majority does not want is apt to get a plurality in the first race and so be the candidate in the second race, when as a matter of fact a big majority of people are opposed to him. We, farmers and business men of Lee County, wish to commend to all our fellow South Carolinians our neighbor and a man we know well, Hon. Richard I. Manning, as their choice for governor. Mr. Manning is first of all a successful farmer, and next, is a successful business man. He is a man whose private life is above reproach, whose public life is always open, who takes a stand to what he thinks is right and does not put his honest convictions aside for a stand that he does not believe in, but which will bring him votes. If elected he will make South Carolina an able governor, conducting the affairs of the State along sound but progressive lines.

United we stand; divided we fall. We urge every good South Carolinian who wants to see our State well governed for the next two years to vote for Richard I. Manning.

J. H. Stuckey, J. W. Boykin, Dr. A. H. Brown, W. J. Josey, J. C. McDuffie, B. W. Segars, I. E. Bennett, E. Alexander, A. F. Bowler, E. A. Hancock, F. B. Scarborough, J. P. Wilson, Jr.—Ady.

Fish Chowder.

Wash a pound of fresh whitefish and cut into inch squares. Pare and dice two large potatoes and mince a large white onion. Put a layer of potatoes in the chowder pot, then a sprinkling of onion, minced or powdered, then a thick layer of fish, plain salt and whole pepper. When all the materials are put in as directed, add a pint of cold water. Cover and cook gently for twenty minutes without disturbing. Heat a pint of milk in a double boiler, and when fish and potatoes are done, turn in the milk. Season to taste if not enough salt and pepper has been put in at first. Serve at once. A pint of stewed tomatoes may be added before the milk, if desired; a pinch of baking soda and a teaspoonful of sugar added to the tomatoes, to prevent danger of curdling the milk. This chowder may be made without milk, using only water and the tomatoes and juice in the can. In this case a little thickening will be required.

Butter Cream Icing and Filling.
Make exactly like hard sauce, with unsalted butter creamed, icing sugar, and flavoring, but stop adding sugar before it gets to the hard sauce stage. It must be spread easily and about once and a half the amount of sugar will usually be about the right amount. It must be thick enough to stand up. If no fresh butter is to be procured make a little by shaking some cream in a Mason jar or whipping it to a butter. Three or four minutes is usually all the time it takes to make this butter if it is to be used immediately.

Keeping Fruit.
This hint was given by a fruit grower and will be useful to those who buy lemons, oranges, grapefruit or apples in large quantities.

Wipe each piece of fruit with a soft piece of old towel flannel which has been soaked in water. Then wrap each piece carefully in new oil paper, such as confectioners use—cut size paper, which is too stiff. Place the wrapped fruit gently and loosely in a barrel or box; put the receptacle in a cool, dry place, and the contents will keep several months.

Notice of Final Settlement and Discharge

Notice is hereby given that I will make application to J. B. Newbery, Esq., Judge of Probate for Pickens county, in the State of South Carolina, on the 17th day of September, 1914, at 10 o'clock in the forenoon, or as soon thereafter as said application can be heard, for leave to make final settlement of the estate of Ivey Clinton Cannon, deceased, and obtain discharge as executor of said estate.

WILLIAM CANNON, Executor.
